

JUNE 18, 2021

GRADUATES' DAY

**CELEBRATE THEM
WITH US!**

The Réseau québécois pour la réussite éducative, Alloprof and Télé-Québec are joining forces **to honor to the graduates, in this second edition of Graduates Day!**

Graduation is an important milestone that should be celebrated in a big way. For the second year in a row, this celebration will not be the one imagined by the 2021 graduates: these young people deserve the greatest congratulations from Quebec society, up to the height of their success in this defining and unifying moment of life!

All graduates deserve our recognition, from elementary and secondary school to vocational training, college, and university. Youth have their own story and personal challenges: we must recognize and honour all of them.

Young people who graduate this year will build the Quebec of tomorrow. Together, let's remember the state of mind in which we were when we graduated and recognize the invaluable contribution of youth to our community.

Every message brought to the event and to the Graduates Day will warm the heart of a young person: **TOGETHER, LET'S CELEBRATE THEIR RESILIENCE, THEIR PERSEVERANCE, AND ADAPTABILITY, AS WELL AS THEIR DIPLOMA!**

Starting now and until June 18, 2021:

SHARE the open letter that will be released in early June to mark the second edition of Graduates Day.

ENCOURAGE your employer to spread a message of pride regarding the perseverance of graduates.

ENCOURAGE a graduate around you with kind gestures, reminding them of the challenges of the past year.

Proudly **DISPLAY** the Graduates Day logo at your windows.

On June 18, 2021, let's honor and celebrate our graduates: **take up the challenge and post an old graduation photo on social media, and congratulate a graduate from this year by tagging them.**

Use the hashtag **#proudfourgraduates**

Will you be with us? #proudfourgraduates
